# ============================================================
# 9. Advanced GAN (StyleGAN - OPTIONAL)
# ============================================================
# NOTE:
# StyleGAN is heavy → run separately if needed

"""
Steps:
1. Clone repo:
   git clone https://github.com/NVlabs/stylegan2-ada-pytorch

2. Download pretrained model

3. Run:
   python generate.py --outdir=out --trunc=0.7 --seeds=1-10 --network=model.pkl

This generates artistic images directly.
